

Eileen

Butch Hancock

There are things we cannot see that hang
 Within her sight
There are people we won't remember that
 Dance with her at night
 Eileen's calling me
 To sit awhile and talk to trees
 Eileen can't you see
The songs you sing are scaring me
 Eileen, Eileen
She's romancing with the moon
 Full and alone
 It's really a street light
 It's something we all know
 Eileen's calling me
 To sit awhile and talk to trees
 Eileen can't you see
The songs you sing are scaring me
 Eileen, Eileen, Eileen
There are things we cannot see that hang
 Within her sight
 It's really a street light
 It's something in her night
 Eileen she's calling me
 To sit awhile and talk to trees
 Eileen can't you see
The songs you sing are scaring me
 Eileen's calling me
 To sit awhile and talk to trees
 Eileen, oh can't you see
The songs you sing are scaring me
 Eileen, Eileen
I, I know what she knows
I know what she knows
I know what she knows
I know what she knows
