

# Outlaw

## Selena Gomez & The Scene

You've been riding this horse a long time  
Why can't you find what you been looking for?  
Always greener on the other side  
Always believe there must be something more  
Never stay very long anywhere  
As the next girl you leave gets smaller  
In you rear-view mirror  
You're an outlaw  
You're an outlaw  
You're an outlaw running from love  
You're an outlaw  
You're an outlaw  
You're an outlaw running from love  
If you tear her world apart  
You have no regrets  
If there
