

Imn

Mudvayne

Suicide, don't give a fuck about this, my life or any other
Just go away and let me hang
Impossible to forgive, forget it, murderer
I'm in control
Living in a lie, make you pay at all cost for this
Love sick, bullshit, bring it
Decisions making themselves
I don't need you thorns in my side, so I die
No one, no one could ever understand
My life's exhausted
No one, no one could ever understand
This life Imn
Determined, to bring you all down with me, break you, beat down
No more fucking empathy from me, for you
Fed up I've had enough
Duality, my war
Existence, instigated controversy, lay down, sell out, so wrong
Drag the blade and go away
I stand cold, cruel and lost
Take me I'm ready
No one, no one could ever understand
My life's exhausted
No one, no one could ever understand
Pressure constricting
So hard, like a stone, fight hard
Break bones, break
No one, no one could ever understand
This life Imn
Your pressure
My time's eroding my life
Fight for your honesty
Fight for integrity
All work and no play
All work and no play
All work and no play makes me
All work and no play
All work and no play makes me
I want to eat a bullet, carve myself, beat my face, catatonic
Dig my brain, no pain, suffocate, stomach aches

Don't give a fuck, I'm out, I'm done fuck this shit

You've dug the hole, I'm lying in

No one could ever understand

No one could ever understand

Fight for your honesty

Fight for integrity

No one, no one could ever understand

My life's exhausted

No one, no one could ever understand

Pressure constricting

So hard, like a stone, fight hard

Break bones, break

No one, no one could ever understand

This life Imn

My world, my rules, my noose

My world, my rules, fuck you

My world, my rules, my noose

My world, my rules, fuck you
