

Please Don't Leave

The Drums

You told me
How the world will end
And I believed you
Because I always do
And you said to me
They dont stand a chance
Only we do
I dont want to lose what we have
I dont think you know how good it is
Please dont leave
Please dont leave
Where will I go
Where will I go
The people look at me
With a little sympathy
Cause it wont end
This chapter wont end
I wont let go
Of what im holding
I wont let go
I cant let go
I wont let go
