

Infernal Maze

Stratovarius

You faded away
And woe is all that remains
And I have gone astray
My mind full of fury instead
I'm carrying a seed of insanity
A burden of faded memories
Delusion, destruction, salvation
Go on without saying
Hate in this creed
Awareness so numb this time
Underneath the skin
You're still drooling in
And what I've come to find
A state of mind
I need to find a way to carry
For my soul will once again be free
But first I need to bare it instead
Infernal maze
I'm lost within an internal game
Infernal maze
My demons are calling out your name
Infernal maze
Infernal maze
I'm lost within an internal game
Infernal maze
My demons are calling out your name
Infernal maze
Infernal maze
I'm lost within an internal game
Infernal maze
My demons are calling out your name
Infernal maze
These demons, these demons
Haunting me, infernal maze
Infernal maze
Infernal maze
