

This Kind Of Love

[Roy Orbison](#)

Our Love, our love, won't die, can't die
This kind of love was meant for you and I
This kind of love was meant for you and I
Your love, my love young love, true love
This kind of love was meant for you and I
This kind of love was meant for you and I
One dream through life, one day my wife

This kind of love was meant for you and I
This kind of love was meant for you and I
One dream through life, one day my wife
This kind of love was meant for you and I
This kind of love was meant for you and I
This kind of love was meant for you and I
