

It's On You

Real McCoy

Hit it It's on you
It's on you M. C. S. A. R.
Right, in the heat of the night
Pump up the party, turn up the light
Back like just an illusion
On the mic to clear the confusion
Get up and dance, dancing to the funky groove,
With all the party people move
So come on, get up, take it to the top,
Don't stop the body rock Yes, do the new jack hussle,
Shake your bootie, flex your muscles
Everybody shake your body
It's MC Sar's hip house party
Like the brother with the mic in my hand
Lets cut and stump into the jam
Like a bro from the blue I break in two. It's on you
It's about the time
So come on get on up
Take it to the top
Don't stop
It's about the time
It's on you. I let the party pump in the whole house jumping
Rocking the house hip hoping on the dance floor
Come on and listen
I'm on the mission
Are you ready to rock steady ?
Rhyme to rhyme I add line to line
The motivation guarantee at all the time
The rhyme rock to the rhythm, the rhythm, the rhythm
Pump up the party (turn up the bass)
Yes, do the new jack hussle
Shake your bootie, flex your muscles
Everybody shake your body
It's MC Sar's hip house party
Like the brother with the mic in my hand
Lets cut and stump into the jam
Like a bro from the blue I break in two. Now, dip dip die
So so silly
Clean up your ears and open your eyes

I took the mic and pump up the jam
Back to rhythm build the hip house caravan
I'm the rapper the chap of the row
He's the DJ (say ho)
All around, so let's get down
The MC Sar's is in your town
Yes, do the new jack hussle
Shake your bootie, flex your muscles
Everybody shake your body
It's MC Sar's hip house party
Like the brother with the mic in my hand
Lets cut and stump into the jam
Like a bro from the blue I break in two.
