

Everything I Need

The Wallflowers

I'm not looking for a warm embrace
I'm not looking for a friendly face
I've got everything I need
I'm not worried if you're coming back
I'm in a hurry 'cause I just found out
I've got everything I need
I've got everything I need
So even if you wanted to you can't save me
You can't fail me, I'm back up on my feet baby
On the way down is when I found out
That I got, I got everything I need
I'm not looking for a hand to hold
I'm not waiting for someone to show
I've got everything I need
I never found a wall, I couldn't climb
I never seen a well as deep as mine
I've got everything I need
I've got everything I need
So even if you wanted to you can't save me
You can't fail me, I'm back up on my feet baby
On the way down is when I found out
That I got, I got everything I need
It doesn't matter if I'm qualified
Or if I ever learn to blow your mind
I've got everything I need
I'm not looking for a place to shine
I wake up and I'm satisfied
I've got everything I need
I've got everything I need
So even if you wanted to you can't save me
You can't fail me, I'm back up on my feet baby
On the way down is when I found out
That I got, I got everything I need
I'm back up on my feet baby
I'm back up on my feet baby
I'm back up on my feet baby
I'm back up on my feet baby
