Foundation

Trial

We made it easy to trace it
We back with the basics
It's hard to replace it
You know exactly what it is
Uh, M dot, O dot, we still hard with it
Yo' block, his block, we still armed with it
While y'all stopped hip hop, we moved on with it
Got it on with it, spit it and rung alarms with it
And nowadays I've aged, so I'm calm with it
But I'm the reason Flex started droppin' them bombs with it
Up by the club love thugs that's war with it
While the homies in the hood decided to go and get it
Enough, I ain't change lanes on you lower dudes
I just upgraded my game on you lower dudes
Foundation a whole different set of rules
Premeditation you facin' predicates fool
You better be cool, I give you the womp, womp
I go in the glove box and womp, womp your top
We made it easy to trace it
We back with the basics
It's hard to replace it
You know exactly what it is
For the foundation we suffered blood, sweat and tears
And cleared all complications
Put it down in many situations, yes kid, you are the last generation
So for the continuation we do what we do for the next generation
We made it easy to trace it
We back with the basics
It's hard to replace it
You know exactly what it is
Run 'em down, gun 'em down, it's crazy when we come around
Insane from the underground, 200 and somethin' pounds
You know my motto, both arms covered with body art
Don't catch a hollow, we keep arms, fuck a bodyguard

Let me remind you, how I do
If you think I'm just spittin' a rhyme nigga you sick as the swine flu
'Cause this ain't rap dummy, you get your fuckin' face clapped
And they gon' have to fix yo' face back with putty

Get it ugly, we do it 365
Day and night but I ain't Kid Cudi, it's M.O.
Spittin' devious thoughts, I'm from where niggaz around house
Kicked your moms, snatched her beads and her cross
Where they hustle hard, tryin to get the keys to the Porsche
Just some of them young boys do it for no reason at all 'cause
We made it easy to trace it
We back with the basics
It's hard to replace it
You know exactly what it is
For the foundation we suffered blood, sweat and tears
And cleared all complications
Put it down in many situations, yes kid, you are the last generation
So for the continuation we do what we do for the next generation
We made it easy to trace it
We back with the basics
It's hard to replace it
You know exactly what it is
We keep flippin' it, we still bringin' it
You be lovin' what we do
We keep flippin' it, we still bringin' it
You be lovin' what we do
We keep flippin' it, we still bringin' it
You be lovin' what we do
We keep flippin' it, we still bringin' it
You be lovin' what we do
We made it easy to trace it
We back with the basics
It's hard to replace it
You know exactly what it is
