

All Our Thoughts (Live at Trix)

Kadavar

On the same old road, the others use to go
And chivel I'd smoke, happy never found
I climbed all the heights both across the sand n' sea
They just won't see that something we believe
Oh, we back with strings, that you know wouldn't tune
Have you ever seen sun I've only seen the moon
And I've still broken with the others still lie
The vengeance turn around our secrets left behind
All, all our thoughts are gone away
All, all our thoughts are gone away
Oh, we back with strings, that you know wouldn't tune
Have you ever seen sun I've only seen the moon
I question the wind and found out from the sky
It's alright to frank cause we never really die
All, all our thoughts are gone away
All, all our thoughts are gone away [Solo]
[New bass riff]
