Better In The Dark

Dio

I'm all right, I'm crossing over
I just shot the sun
One more night, black as heaven
So no one saw the gun
Running with monsters in shadows
And monsters always know
It's better in the dark
Oh, she's all right, tall and handsome
If the lights are down
Gone by dawn, takes no chances
Might come back around

Clutching to monsters in shadows
And monsters always know
It's better in the dark
I'm all right, I'm crossing over
I can disappear, gone
Clutching to monsters in shadows
And monsters always know
It's better in the dark
Better in the dark
I just shot the sun
