

# Saturn Boy (Kosmonavt Remix)

## Dream Koala

I look at the stars at night  
And I wonder if there is a God?  
If we are alone in the Universe  
If you hear me, take me away  
'Cause this place is not made for me  
Time burning the trees,  
Killing a mother  
So far from home  
Million miles away  
Can you hear me calling? Hear my voice?  
So far from home  
Galaxies away  
I feel your call, I hear your voice!  
It scares me to think of tomorrow,  
Future, what's waiting for us?!  
If there is a God in the Universe?  
If you hear me, take me away  
'Cause my soul is not made for this  
Time is blood on the lips,  
Houses on fire  
So far from home  
Million miles away  
Can you hear me calling? Hear my voice?  
So far from home  
Galaxies away  
I feel your call, I hear your voice!  
So far from home  
Million miles away  
Can you hear me calling?  
Hear my voice?  
So far from home  
Galaxies away  
I feel your call, I hear your voice!
