

I Am The Rain

Firewater

You: back on the town
Skulking around
Looking for something that you lost
What was the price?
And who paid the cost?
And I'm watching..
You: hard shiny and cold
And me: feeling so old
Cause I have waited so long
Waited so long
Waited for nothing..
And I... I am the Rain You: back on the case
Checking your face
Looking for evidence of time
Where has it gone?
Our lines have been drawn
And we follow.. You: antiseptically clean
And me: like a broken machine
And I have been broken so long
Broken so long
Broken and hollow..
And I... I am the Rain You: antiseptically clean
And me: like a broken machine
And I have been broken so long
Broken and hollow..
And I... I am the Rain
