Moonspell

It's when we fall down on our knees to suck the mouth of each other
It's when life's so precious that every moment hurts
That I fear for myselfFrom the trees our bodies, swaying
Once we were the lovers engaging below them,
Indifferent
Now it's the world that went on
Indifferent to usIt's when you invade me again
In our judgement day we wont be together
Our time has come
Again I fear for myselfFrom the trees our bodies, swaying
Once we were the lovers engaging below them,
Indifferent
Now it's the world that went on
There was no time to be strong
Now it's the world that went on
Indifferent to us.
