

# Wake Up

## Parade of Lights

Let's get away tonight,  
Pack everything and hold tight.Come on, make up your mind,  
Don't tell me this is goodbye.I've been waiting for you all my life.(Let's leave it all behind.)~Chorus~

Wake up,  
Let's run  
'Cause I'm done,  
I've got my mind made up.

Wake up,  
Let's run,  
'Cause I'm done.

We could be anyone.I couldn't sleep again,  
I'm tired of playing pretend.The walls are caving in  
And I hate all of my friends.I've been waiting for you all my life.(Let's leave it all behind.)[Chorus]We could  
be anyone.~Bridge~

There'll be nothing left to say  
If you push yourself away  
Thought we could change it all today.  
You and I.(Let's leave it all behind.)[Chorus x2]
