

# It's Just Me

## Nyco

I'm creeping my way out so you can see me  
I'm crawling my way around a thousand cities

You all stop and stare

I don't need your pity

I'm living my life in this hell.

Now I'm crawling away 'cause the stress has killed me

I feel like i fell from a ten storey building

you best run and hide before the devil starts her bidding

I'm living my life in this hell

I'm not one for the crowd to see

It's just me

It's just-

Just a little more, c'mon and satisfy me.

Just a little more, c'mon lets terrify me

Just a little more and I'll be done with it

Take my life and then I'll feel okay

Cut it out of my mouth

put my toung on the pole

I won't sing anymore

I'm losing control

Cut it out of my mouth

Put my toung on a pole

Take the air from my lungs

Take the heart from my soul

I'm not one for the crowd to see

It's just me

It's just-

Just a little more, c'mon and satisfy me.

Just a little more c'mon lets terrify me

Just a little more and I'll be done with it

Take my life and then I'll feel okay

Okay.

I'll feel okay.

Okay!

Cut it out of my mouth

put my toung on a pole

I don't sing anymore

I'm losing control

I won't song anymore

I'm creeping my way out so you can see me

I'm crawling my way around a thousand cities

You all stop and stare

I don't need your pity

I'm living my life in this hell.

Just a little more, c'mon and satisfy me.

Just a little more, c'mon lets terrify me

Just a little more and I'll be done with it

Take my life and then I'll feel okay

Just a little more, c'mon and satisfy me.

Just a little more c'mon now terrify...

Just a little more and I'll be done with it

Take my life and then I'll feel

Take my life and then I'll feel

Take my life and then I'll feel

Okay!

(Talking behind the music)

(Strange retching/spitting noise)

"Oh, Oh God. I must have passed out."

"Dude"

"I woke up and I'd passed out"

"You just did"

(inaudible)
