Rays of Light

Broiler

We cover our eyes, passing through the dark
We don't wanna fade away.
We're always afraid we gonna fall apart
Waiting for the same mistakes.
Let's color the sky, let go of the pain for tonight
Let's see what's behind the clouds

Rays if light, that's what we are
We chase away the dark
Rays of light that's what we are
ooooh
Rays of light that's what we are
We chase away the dark
Rays of light
Rays of light
Rays of light
That's what we are

You're never alone you don't need to run
It is only just begun
'cause everytime you open up your heart
You get closer to the sun
Lets color the sky, let go of the pain for tonight
Lets see whats behind the clouds

Rays if light, that's what we are
We chase away the dark
Rays of light that's what we are
ooooh
Rays of light that's what we are
We chase away the dark
Rays of light
Rays of light
Rays of light
That's what we are
That's what we are
That's what we are
ooooh
ooooh

ooooh

ooooh
ooooh
