Come Into My Life

LaBelle

Come into my life
Come into my life Iâ€™ve got a lot to give

I can smile the perfect smile
And still be hurt within
The scars I bear are nowhere near
The surface of my skin
Who can love the perfect love
Never short or thin
If youÂ’re above suspicion
Knowing my condition
Come into my life
Iâ€™ve got a lot to give

I can play the perfect game
And still have room to lose
The choice of how I crawl or bow
Must be mine to choose
Who can hear the perfect ear
Playing out of tune
If youâ€™re above suspicion
Knowing my condition
Come into my life
IÂ’ve got a lot to give
You can come into my life
Iâ€™ve got a lot to give
You can come into my life
You can come into my life
You can come into my life

I have seen the high and low
And all the inbetweens
Shared your cause and found applause
To be a distant dream
It was never, never, never, never, never far away
So it always seemed
If youâ€™re above suspicion
Knowing my condition
Come into my life

Iâ€™ve got a lot to give
Come into my life
Iâ€™ve got a lot to give
Come into my life
Iâ€™ve got a lot to give
Come into my life
Iâ€™ve got a lot to give

You can come into my life
You can come into my life
You can come into my life
You can come into my life
You can come into my life
You can come in to my life
You can come into my life

Come into my life
Iâ€™ve got a lot to give
