

This Heart Is a Stone (The Island Version)

Acid House Kings

They say your middle name is trouble
But I know it's Caroline They say you remind them of problems
But I think you look like Audrey Caroline, I know that you put on a show
Every time you two disagree This heart is a stone
No one will ever break it
This heart is a stone
Close to you it breaks easily
Cause everything that they say
It tells me to go away
But everything that I feel
It tells me to stay They say they can smell the drama
But I know it's No. 5 They say you only bring heartache
But I know you bought a bottle of wine Caroline, I know that you put on a show
Every time you two disagree This heart is a stone
No one will ever break it
This heart is a stone
Close to you it breaks easily
Cause everything that they say
It tells me to go away
But everything that I feel
It tells me to stay They say you're like a Monday morning
I say you're like a Friday night
I don't get their point
Anytime is a good time for being with you This heart is a stone
No one will ever break it
This heart is a stone
Close to you it breaks easily
Cause everything that they say
It tells me to go away
But everything that I feel
It tells me to stay
