

Last Call

Traci Braxton

It's the last call

It's the last call

It's the last call

It's the last call

It's the last call for loving

I'm so over the pain so

It's my last call

It's the last call for loving

I'm so over the pain so

It's my last call

Hey cupid, why you looking stupid?

You got an arrow don't you, won't you use it?

Pick through the bag of love, make my perfect picture

And make me love sick

I need a perfect picture

Why is it so different when it comes to me

How many more times can I believe

Before I let go of the fantasy

Cause it seems so real to me

When your body's close to me

And when you make love to me

I'm tired of the hurt

Got the house like song

Cause it's my last call

It's the last call for loving

I'm so over the pain so

It's my last call

It's the last call for loving

I'm so over the pain so

It's my last call

So baby how we gon' do this

Why you gotta to be so elusive

Just when I thought I've found the perfect picture

We be dealing with all types of issues

So why is it so different when it comes to me

How many more times can I believe
Before I let go of the fantasy
Cause it's so damn real to me

When you're so close to me
And when you make love to me
I'm tired of the hurt
Got the house like song
Cause it's my call

It's the last call for loving
I'm so over the pain so
It's my last call
It's the last call for loving
I'm so over the pain so
It's my last call

I've been so caught up here all this time
While inside I've been slowly dying
I don't feel like you've been trying
Can't you see we're so divided

So why is it so different when it comes to me
How many more times can I believe
Before I let go of the fantasy
Sometimes I think that I just need to breathe

Breathe
I'm tired of the hurt
Got the house like song
Cause it's my call

It's the last call for loving
I'm so over the pain so
It's my last call
It's the last call for loving
I'm so over the pain so
It's my last call
