

Lullaby (The Smile Upon Your Face)

The Canadian Tenors

The sun has gone to bed my love,
it's time to do the same
Just listen to the moon's serenade,
he's calling out your name Now close your precious eyes my love,
those eyes that shine so bright
Like stars that guide you on your way,
through the darkness of the night Fly away in dreams of gold and silver,
my voice will draw you near,
to this place where love awaits you
you will find me here So when you dream tonight my love
among the angels sweet embrace
know that I too am there admiring
the smile upon your face
know that I too am there admiring
the smile upon your face
