

# Beautiful Girls

Emily Clibourn

All around the world people making love  
Summer rose of California  
The french tip their hats to the taxi cabs all dressed in black  
Walking down the street in the summer time heat

Beautiful girls  
You can call us gangsters of love  
Steal your heart then run  
Beautiful girls go bang bang

Beautiful girls  
You can call us gangsters of love  
Steal your heart then run  
Beautiful girls go bang bang

Treat an angel like an angel

Ships sail all around the world  
Looking for all the beautiful girls in alabaster  
Lips are red, nails are black  
Giving out heart attacks

Lips are red, nails are black  
Giving out heart attacks

Beautiful girls  
You can call us gangsters of love  
Steal your heart then run  
Beautiful girls go bang bang

Beautiful girls  
You can call us gangsters of love  
Steal your heart then run  
Beautiful girls go bang bang

Treat an angel like an angel  
Treat an angel like an angel  
Treat an angel like an angel  
Treat an angel like an angel

All around the world people making love  
Summer rose of California  
The french tip their hats to the taxi cabs all dressed in black  
Walking down the street in the summer time heat

Lips are red, nails are black  
Giving out heart attacks

Beautiful girls  
You can call us gangsters of love  
Steal your heart then run  
Beautiful girls go bang bang

Beautiful girls  
You can call us gangsters of love  
Steal your heart then run  
Beautiful girls go bang bang

Treat an angel like an angel
