

Scared

Dangerous Toys

Who is the man in the white vest?
I'm getting nervous, becoming a mess
Is he the doctor's man to take me away?
Or the same damn demon from yesterday?
Waking up is virtually impossible
Something in this story won't let me out
You know I'm shaking and I'm feeling sick
Guess I'm gonna need a vodka quick Momma's lace and whiskey on the top shelf
Somehow they got caught up in my dream
Monsters on my right and cobwebs on my left
Scary man standin' right in front of me Hey man, I think I like being scared
An' I wish you all were there Tomorrow, if I get my strength
I'll put my Daddy's gun to use
I hate it, I hate it, feels like I'm drowning
The man's tied me up and I think he's frowning Black widow is his favorite bite
Why does the creature cling so tight?
Makes her crawl on my face and neck
God, the man drives me a nervous wreck Why am I starting to like this?
You know he hasn't hurt me yet
But it's different now, just a whim
Maybe I'm becoming his pet Hey man, I think I like being scared
An' I wish you all were there
Man I really, really think, really think that I think
I like being scared Momma's lace and whiskey on the top shelf
Somehow they got caught up in my dream
Monsters on my right and cobwebs on my left
Scary man standin' right in front of me Why am I starting to like this?
You know he hasn't hurt me yet
But it's different now, just a whim
Maybe I'm becoming his pet Hey man, I think I like being scared
An' I wish you all were there
Man I really, really think, really think that I think
I like being scared
