## THE GRTNS

Man we going for it  
So let me hear you say "Fuck you"  
Tonight we all gon' be rockstars  
Let's level this town  
And give 'em all something to talk about  
So I say Now now hold up a minute  
Can I get a name  
Until vibrations beginning  
So sweet in the building  
So show 'em how you feeling  
Put you drink up to the ceiling  
No no here we goWelcome to the greatness  
So glad you could make it  
Time to say a toast to everybody  
Put your drinks up  
Here's to where we at now  
Here's to where we gon' be  
Can't stop won't stop  
Oooh I think she likes me  
Cause she scared money don't make no money girl  
Ride it like a stone and don't hold back nothing then  
Saying for just goodness gracious  
Tonight come on let's take this  
Welcome to the greatnessFive, four, three, two, one  
Houston we're about ready for lift off  
You comin' with us  
You said maybe, but sounds like I want to  
All on board get us up on to the next town  
With all the names and streets  
No matter where we y'all can hear this beat  
So do a quick step rock a little bit  
Cause now we arrived  
We just gon' snap to this  
We just snap to this  
Now need for thank yous  
It's the least we could do  
Believe me when I say  
It just ain't that complicated
