

# Taster

## Grandaddy

Put out the word, we need a new taster

There's one King left and so much food to eat

The interception by the last one was absolute professionalism

If he's laying there saying he's sorry

Tell him it's okay, we learn this wayTaster you're the automatic SaintRival sabotaged a bad pot of duck stew

With just one breath left, he warned the dinner crew

Selfless line of work the word that comes to mind is selflessness

If he's laying down saying he's sorry

Tell him it's okay, we learn this wayTaster you're the automatic SaintTaster you're the automatic Saint

Taster you're the Automatic OneTaster you're the automatic Saint

Taster you're the Automatic OneTaster you're the automatic Saint

Taster you're the Automatic OneTaster you're the automatic Saint

Taster you're the Automatic OneTaster you're the automatic Saint
