

Drug (It's Just A State Of Mind)

Duran Duran

(lebon, rhodes, taylor)

Take me in the morning

Take me every night

Take me when you're feeling low

Take me when you want to stay

Take me,

Take me, take me, take me, take me

Take, take, take, take.

Before you slide into the wide

There's something i want you to know

(what you see is what you want)

In all your stretch of conciousness

You've still got a long way to go

(what you want its what you need)

Some make you spin,

Some make you sweat,

Its only here for you to choose (choose me)

And if you try, an alternative high

Then tell me what have you got to loose now.

Take me every morning

Take me every night

Take me when you're feeling low

Take me when you want to stay - up all night

Up all night

The hit, the hit

The hit to fit reality,

Its just a state of mind

(what you see is what you want)

And you'll admit its more than just an axe that you've got to grind

(what you want is what you need)

We'll make a spin

We'll make you sweat

All you've got to do is use me (use me)

Some like it hot

But i like it wet

So tell me what have we got to lose now.

(chorus)

A drug, its a drug

A drug, its a drug

A drug, its a drug
A drug, its a drug
(use me) (use me) (choose me) (choose me) (use me) (use me)
A drug, its a drug
A drug, its a drug
A drug, its a drug
A drug, its a drug
(chorus)

Take me every morning
Take me every night
Take me when you're feeling slow
Take me when the mood is right
(chorus)

Take me every morning
Take me every night
Take me when you're feeling slow
Take me when the mood is right
Up all night
(chorus) (mixed until fade.)
