Dirty Faces

Living Legends

Advisory - the following lyrics contain explicit language:

Angels with dirty faces
We got this underground
We got this underground
We got this new sound
Alright, check itWe are there riding the scene
The world goes on without you
We are there riding the scene
The world goes on without youSun-shh for Sunspot Jonz
Underground legend bones
Almost broke trying build this underground heaven
We are lights of a passageBe alert, be about work
And penetrate while others hate
Yo, they instigate, we translate
Verbal codes into lyrical statesCan't wait for that phone call
I'm calling you, what can you do for me
And the Legendary?
We must sell this CDAnd make it back, those who lack
Your mental will always hold your back
I grew up up in Oakland, next to High Street
Yo, my feet are my eyes and my ears are my movesBumpin' like this groove
We choose to the rhythm
We choose to the rhythm
We move to the rhythmYeah, and it don't stop
'Cause the world don't stop
What you gonna do, draw?We are there riding the scene
The world goes on without you
(Never, never stop)
We are there riding the scene
The world goes on without you
(Put 'em up, put 'em up)Beauty like a woman's touch
There's still so much to learn
A kiss is a burn into my soul

We know nothing but we see it allThis is all not the same
I am a warrior
On the mic you can't strike
Yo, you better swing all the wayAnd bring home the pendant
Yo, I didn't have all A's in school
But I could see the way, fuck being average
I knew the world was run by cabbage, greenCan't have owed, dream with the fishes
We make wishes
Ain't nothing ever gonna go
Unless you go and just show oh so-so
Ain't nothing ever gonna goAin't nothing ever gonna change
Unless you go and use your soul
Use your mind
(We ridin' the scene and we gonna)
Know your role, know your role, know your roleWe are there riding the scene
The world goes on without you
(Yeah, the world go on without you, now)
We are there riding the scene
The world goes on without you
(The scene, yeah, it go on without you)We are there riding the scene
The world goes on without you
(Yeah, the world go on without you, now)
We are there riding the scene
The world goes on without you
(The scene, yeah, it go on without you)You always thought stuff was gonna stay the same
You always thought you could just make and maintain
The world go on without you, you never knowWe are, somethin' to end out on
Let the music just fade out
Then you can just close your eyes
And just think about
