

# Trifixion

## Deicide

Blaspheming god, my body was possessed  
The essence of their spirits are evil  
Burning my flesh, inhaling no regrets  
A diabolic sentence of destruction

Burning I bleed, unholy incision  
Mark of the beast, behold the trifixion

Prepare the tool to observe my fate  
Upon this mortal shell in  
Satan's name I desecrate  
Evil controlling the way I die  
The mark is what distorts my soul beyond my sanity

In the name of Satan  
I condemn this image of god  
I am a key!

Blessed by the sign, symbolically I die  
Intwist me in the lines of trifixion  
Torment, semantic in design  
Inflict this mortal shrine,  
with pure hatred  
Kill me, before my time is lived  
It's all I have to give, to be thankful  
Satan, entangled in my sores  
Forever I am bound by your conviction

Tri fixion, Tri fixion

Prepare the tool to observe my fate  
Upon this mortal shell in  
Satan's name I desecrate  
Evil controlling the way I die  
The mark is what distorts my soul beyond my sanity
