

# Killer Kaczynski

## Mando Diao

Bombs over the street, bombs all over the subway  
Bombs on your mind when there's no one around  
Now in your garden there was never a problem  
But now you're standing on the street  
Bombs for your dad, bombs for your mummy  
Bombs that passed a long time ago  
Now in your childhood there was never a problem  
But now you're standing on the street  
And you wish that there was something you could do  
To win back that feeling that was new and fresh but  
Bombs over the street, bombs all over the subway  
Bombs on your mind and the people around  
It's such a shame now, this game you play now  
You're standing lonely on the street

With bombs tied on to your feet, yeah  
Blood all over the street, blood all over your body  
Blood on your mind and the people around  
Oh, in your garden there was never a problem  
But now you're standing on the street  
And you wish that there was something you could do  
To win back that feeling that was new and fresh but  
Bombs over the street, bombs all over the subway  
Bombs on your mind and the people around  
It's such a shame now, this game you play now  
You're standing lonely on the street  
With bombs tied on to your feet, yeah
