

Mr. Turner

Ruth

There is something inside of us all
Thats wondering where were gonna go
When all the lights are turned down low
Lately the news is weighing me down
I get confused, whats life all about?
Im ready for some answers now
What if I keep my eyes on You
Could I sail across the ocean blue?
And Your sun will guide me through
If I go, this I know, Im headed home
Once upon a time when I was so young
Looking back at all the things that Ive done
I wonder if You were around
Cause my family prays with all their hearts
That I could change
And Im ready to start thinking it over
What if I keep my eyes on You
Could I sail across the ocean blue?
And Your sun will guide me through
If I go, this I know, Im headed home
And wouldnt it be nice if we could live twice
And watch the sunset just one more time
Wouldnt it be nice if we could live twice
And watch the sunset just one more time
If I keep my eyes on You
Could I sail across the ocean blue?
And Your sun will guide me through?
If I go, this I know, Im headed home
If I should die before I wake
I pray, Thee Lord, my soul to take
