

Juke Joint Love

Sonny

Verse1

You only like me when I'm doing the twist
Pay no attention while I look at your lips
You think I came and watched you dance with your risk
And do the locomotion girl and that's it

You and me

Belong together

Don't worry about it

You can see

I wanna let go

It ain't helping my body

Yeah Yeah

And I don't need your love

Your juke joint love

So you can keep that love

Your just a juke joint love

You want to bend the rules and twist and shout

I said a twist a shout a twist a shout

You do the locomotion so well

I said a twist a shout a twist a shout
