

# Big Sky

## Sinkane

Big sky, I?m gonna hurt you  
Big sky, you?ll remember this  
    Big sky, up above the rain  
How can I ever put a stop to it  
    Look you in the face again?  
Big sky, I?ll never let you go  
    Big sky, baby, I told you so  
Big sky, look at this swollen pride  
    I got so busy looking out for you  
    When were you by my side?  
When I?m breathing, when I?m sleeping  
    I can think of nothing else  
    All my longing, all my waiting  
    All the things you never felt  
    All my weeping, all my wailing  
    All my standing on the shelf  
How am I ever gonna get through this  
    Back to myself again?  
    Big sky, I never knew you  
    Big sky, let me down again

Big sky, giving you the blame  
How can I ever put a stop to this  
    Look you in the face again?  
When I?m breathing, when I?m sleeping  
    I can think of nothing else  
    All my longing, all my waiting  
    All the things you never felt  
    All my weeping, all my wailing  
    All my standing on the shelf  
How am I ever gonna get through this  
    Back to myself again?  
    Won?t you say it isn?t so  
    Watch me falling, see me falling  
    I slip through the vortex of the sky  
        Darkness and light  
        It?s what?s inside  
        Darkness and light  
        It?s what?s inside
