

Microwave Popcorn

Beans On Toast

Got a bowl of microwave popcorn and a DVD
We'll watch in bed on your laptop tonight, after you've made tea
It's the simple things that matter, to me they matter to most
Don't worry baby, cos I've done the washing up

Without you it would be impossible, or at least it wouldn't be right
And every time I look ahead I see you standing by my side
I know they say that love it blind
But I can see it clear
Happy Anniversary baby, here's to another year

We'll don't forget to put the alarm on, you got work early tomorrow
You always get such a bollocking, you don't want to miss that promotion
Just let me know what time you're done, and I'll come pick you up
We could go and get dinner, we could go and get drunk

Without you it would be impossible, or at least it wouldn't be right
And every time I look ahead I see you standing by my side
I know they say that love it blind
But I can see it clear
Happy Anniversary baby, here's to another year

A year can last a life time, or it can go in a day
And the future so full of uncertainty, it's hard to know what to say
But the stars say we're ten out of ten, and we could last forever
And watch the years go rolling by, for as long as you want to

Without you it would be impossible, or at least it wouldn't be right
And every time I look ahead I see you standing by my side
I know they say that love it blind
But I can see it clear
Happy Anniversary baby, here's to another year
