Deitrick Haddon

## Verse 1

I've been watching you and holding you all of your life  
Even through wrong and right  
But I'll still love you  
I hate to see her going through so much pain  
It don't have to be this way  
Just let me love youBridge  
I can be the calm through your storm  
I can be the way when your lost  
I can be the smile when your down  
Just reach out for me im here  
I can give you joy so sweet  
That it would make your love for me so deep  
Just look up and close your eyes  
And reach out for me and I'll be hereChorus

I'm the one  
That your searching for  
But the question is  
Do you wanna be loved  
I can ease the pain  
I can stop the rain  
But the question is  
Do you wanna be loved
