

Love Mistake

Heart

K.C.

Take another sip-o-wine
You gotta get her off your mind
You can talk about your heartbreak to me
Ok, K.C. I wish it could be easy
Just another lesson of the heart

K.C.

We were feelin' out of place
So we made our own escape
In that New York cafe place to be
Outsider, traveler you and me
We were laughing about it
Kept us out of reach
I won't forget that night
I won't forget that light
Through the window and the lace
Making patterns on your face
Exposed with all your pain
I know it hurts the worst
That very first love mistake
You said we'll still be sitting
Here again someday,
Laughing at ourselves this way
After time has healed and made it right
We'll still be looking in each other's eyes
And through it all
It's friends who will survive
I won't forget that night
I won't forget that light
Through the window and the lace
Making patterns on your face
Exposed with pain
I know it hurts the worst
That very first love mistake
I won't forget that night
I won't forge that light
Through the window and the lace
Making patterns on your face
Exposed with all your pain

I know it hurts the worst
That very first love mistake
