Deep River

Willard White

Deep river, my home is over Jordan
Deep river, you know I got long to stay here
You know I got long to stay here
My calling down the thunder
From this land just wait for me
Just wait, swimming the oceanI make it love for you baby
Deep river, oh, I over drown
Deep river, I want to cross over into camp-ground.
You want I want to cross over into camp-ground.
