

Tender Situation

Ween

State this ache as the final break
Tender situation create a good illusion
Feel the grip of your salvation
This is indeed a tender situation Make your move man, state your case
Taste the waste man, taste the waste
What is your place in my glorification?
Yeah, this is really a tender situation Get off the pot man, shake and bake
Taste the waste boy, taste the waste
Pump it up or stray from that old station
Yeah dude this is really a tender situation State this ache as the final break
Tender situation create a good illusion
Feel the grip of your salvation
This is indeed a tender situation Make your move man, state your case
Taste the waste man, taste the waste
What is your place in my glorification?
Yeah, this is really a tender situation Get off the pot man, shake and bake
Taste the waste boy, taste the waste
Pump it up or stray from that old station
Yeah dude this is really a tender situation State this ache as the final break
Tender situation create a good illusion
Feel the grip of your salvation
This is indeed a tender situation Make your move man, state your case
Taste the waste man, taste the waste
What is your place in my glorification?
Yeah, this is really a tender situation Get off the pot man, shake and bake
Taste the waste boy, taste the waste
Pump it up or stray from that old station
Yeah dude this is really a tender situation
Tender situation, tender situation, tender situation
