

# More than Ever (Michael G Easy Star Remix)

## Rebelution

Just like I said before,  
Give me two weeks, when I come home, I'll come and say hello,  
With hugs and kisses for you Mrs. how I miss you so,  
Been gone forever, nothing better than to see you though Tell me how you been,  
Don't you act surprised this is how I am,  
I'm feeling good and that's real,  
You and me should kick it more than ever, more than ever, more than ever Remember me and you Remember  
when we'd sit,  
Talk face to face and wonder whether we'd be making it,  
And chat for hours about the leftist side of government,  
I'd sit and listen to your words and I'd be loving it,  
And now the times have changed,  
Older but we always stay the same,  
I'm filling up the whole lane,  
You and me should kick it more than ever, more than ever, more than ever
