

# We Are At War

## Holy Moses

There has been an act of war  
Declared to the world by terrorists  
I can't sit at home and watch TV  
Anger and sadness rules my heart Kind of justice must be done  
All the death and pain  
Now it has to begin with us  
The fuckin' bastards have to die We are at war, we are at war No regard for human life  
United we have to [Incomprehensible]  
But how far, but how far  
Torture, death and pain No regard, no respect  
Will be ingredients for human life  
No respect  
Have to die We are at war, we are at war  
We are at war, we are at war No one is safe  
Nothing for sure  
Crimes against humanity  
For a king in hell Satan's work's done  
And we will be none  
Another holocaust  
Human death a bloody cost A pleasure they need  
And we will agree  
The world starts to burn  
But no one will learn Is it what I will get?  
Do we all like to forget?  
Do you wanna be safe?  
Something to say, do so Conquer the way  
Delete the way  
Delete the way  
Delete the way We are at war Now we have to ask again  
Eyes are blinded from the one  
Fight for what we have to believe  
All around burned to ash Bodies, bodies  
Teacher's lessons  
For your life  
Getting our way Bodies, bodies  
Burned to ash  
Getting our way  
Take our life We are at war, we are at war We are at war, we are at war  
We are at war, we are at war

We are at war
