

# Black

## Trivium

Decomposing in this worthless tomb  
Nothingness inhaled, I am consumed  
Starving for the ending to this doom  
We the parasite, our death overdueBlack  
Is opening  
Oh, how it stares  
So deep  
Into the soul  
So deep into the soulBlack  
Downfall of decimation  
Black  
It tears apart the nightBlack  
Downfall of decimation  
Black  
It tears apart the nightTermination sits across my cell  
Waiting patiently to unleash hell  
Frothing at the mouth, its hunger tells  
Of the feast I'll soon become, my soul meltsBlack  
Is opening  
Oh, how it stares  
So deep  
Into the soul  
So deep into the soulBlack  
Downfall of decimation  
Black  
It tears apart the nightBlack  
Downfall of decimation  
Black  
It tears apart the nightRain  
Rain down  
On  
This hopeless  
Scorched abyss  
Rain down  
Termination's  
All we're owed  
Rain down  
Rain  
Rain downBlack

Is opening  
Oh, how it stares  
So deep  
Into the soul  
So deep into the soulBlack  
Is opening  
Oh, how it stares  
So deep  
Into the soul  
So deep into the soulBlack  
Downfall of decimation  
Black  
It tears apart the nightBlack  
Downfall of decimation  
Black  
It tears apart the nightBlack  
Downfall of decimation  
Black  
It tears apart the night
