

# Old School

Josie Dunne

VERSE 1 Shows up right when he said he would  
With flowers in his hand  
Chivalry ain't dead  
While everybody seems to look  
Down at a phone screen  
He's looking at me PRE: When it gets hard to see in black and white  
He takes my hand and brings me back in time  
CHORUS: My baby loves me old school  
Swings me like used to  
Classic like a blue moon  
He loves me old school  
Pebbles at my window  
Kisses with his eyes closed  
Always makes the first move  
He loves me old school VERSE 2 Hand on my waist, we start to dance  
I know he's not looking over  
Them bitches over my shoulder  
My man is all about romance  
Sweet like Sinatra  
Glad that I've gotcha PRE:  
When it gets hard to see in black and white  
He takes my hand and brings me back in time CHORUS: My baby loves me old school  
Swings me like used to  
Classic like a blue moon  
He loves me old school  
Pebbles at my window  
Kisses with his eyes closed Always makes the first move  
He loves me old school
