

# History

## This Wild Life

Advisory - the following lyrics contain explicit language:

You should not get what you have not earned  
What I do from here is none of your concern  
It didn't work, yeah I know it hurts  
But it's gotta give before it gets much worse Ooh, gotta give up on you, ooh  
Ooh, gotta give up on you, on you We've got a lot of history  
But there's too much space between you and me  
You have plans, yeah I have dreams  
But do I have the guts in me  
To leave, leave, pack my shit and leave  
Leave, leave The irony gets the best of me  
I'm sad that we split, but you're still happy  
What I gave to you was more than memories  
What you took from me wasn't worth anything Ooh, gotta give up on you, ooh  
Ooh, gotta give up on you, on you We've got a lot of history  
But there's too much space between you and me  
You have plans, yeah I have dreams  
But do I have the guts in me  
To leave, leave, pack my shit and leave  
Leave, leave, oh You never cared enough, you never earned my trust  
You just took what you could get  
You never lift me up, I never feel your love  
I know exactly what this is I'm tired of the weight when you lean on me  
If I fell you would never stay to carry me 'Cause we've got a lot of history  
But there's too much space between you and me  
You have plans, yeah I have dreams  
But do I have the guts in me  
To leave, leave, pack my shit and leave  
Leave, leave
