

Good to Be Alive (Deep Dish remix)

DJ Rap

Don't crucify if I feel alive
It's a natural high and I'm satisfied Absolved from sin
I called the devil from within
He told me live my life
Don't let them criticize It's good to be alive
Sometimes I wonder how I survived
And in my mind's eye
When you're low no-one seems to know
A fallen angel tonight
I feel no shame when I'm high
It feels so good must be right
It feels so good inside
Inside I'd love to love you but I'm too impure an angel X3
I'd love to love you Don't compromise
You don't live my life
'Cos I don't judge you
When I look in your eyes It's good to be alive
Sometimes I wonder how I survived
And in my mind's eye
When you're low no-one seems to know
A fallen angel tonight
I feel no shame when I'm high
It feels so good must be right
It feels so good inside
Inside I'd love to love you..
