Lean

Colby O'donis

Pop out that bottle, bottle, bottle,
But I like the model, model, model,
I will drink you let me enjoy you all night, all night,
Slowly down show me what you do, all night, all night
Lean on me, lean on me, lean on me, lean on me
You're my promethasy,
Girl it feels like a ' uuh this is exactly what I need it
Ooh
All night long, keep this kind '
I will drink you let me enjoy you all night, all night,
Slowly down show me what you do, all night, all night
Lean on me, lean on me, lean on me, lean on me
You're my promethasy,
Girl it feels like a ' uuh this is exactly what I need it
Ooh
I don't care I'm gone I'm so happy that I found you
I'm so happy that I found you
I'm so happy that I found you
I'm so happy that I found you
I'm so happy that I found you
Ooh, ooh, ooh, ooh
Feels like lean on me, you're my promethasy
Girl it feels like a ' uuh this is exactly what I need it
