

Cool Waters

Tanita Tikaram

And they can't take that away
When you walked right up to me
And I felt just like a storm cloud rising
And the sweetest melody
And the preacher he is wise
To every sin that follows me
But when I try to lead a righteous life
I still struggle to believeCool waters
I want my life with you
And if I live forever
I'd still be loving youAnd when the people talk
Of every heartache they have seen
Even in the darkest, loveless, loneliest night
There's the dream you couldn't leaveCool waters
I want my life with you
And if I live forever
I'd still be loving youMusiqueAnd how my body aches
Just to disappear with you
To hold you in the chill night air
And the thrill of diving throughCool waters
I want my life with you
And if I live forever
I'd still be loving youCool waters
I want my life with you
And if I live forever
I'd still be loving youCool waters...
Cool waters...
Cool waters...
