Thrash Synergy

Extol

Strengthened individuals
Encouraged for unity
We've been pushed to the limit
Through an established motivation
Gathered in love to Christ our headCome on let's join in synergy
Conspiracy constructed with hope in sight
A rebellious enthusiasm - united by Christ
To vulcanise the spirit filled thrash foreverRevitalization is what we want to see
Of the moving solidarity
By given strength community will be found
Let's exploit our nerve of optimismBy flash we'll go separate ways
By spirit we'll unite
It's time to make a change of mind
To conquer egocentricity
