

you should lie

Holy Wave

If you don't want me to know that I love you, you should think

If you don't want you to know that I want you

If you can't let it alone that I love you, you should think

If you don't want the truth then you should lie If you don't want me to know that I love you, you should think

If you don't want you to know that I want you

If you can't let it alone that I love you, you should think

If you don't want the truth then you should lie
