Side Effect (Infecticide)

Rosetta Stone

cancel everything
i'm sick of this
all i said i'm afraid i might say it again
abandon everything
i'm sick of this
taste
the less life i know the less lies i'm told even truth
is evil in you
you are my side effect
you are my coming down
burn bridges burn everything
i'm sick of this
place
never underestimate someone who has nothing to lose
someone like you
