Block Capital

Arkarna

One stolen breath within the city falls
Inhale the future you could have it all
It's such a nuclear waste but it sees me through
Don't follow me 'cause I'm lost tooThese words I scream in silence
I don't fit this shoe
With a passion building up inside the bite
I could not chewIt's always something for nothing
It's always something for nothingI've got a high rise block inside my head
I hate to state the obvious but nothing said
Pollute your lungs and your mind will follow
Time decays until it's overThese words I scream in silence
I don't fit this shoe
With a passion building up inside the bite
I could not chewIt's always something for nothing
It's always something for nothing
It's always something for nothingIntoxicated sanity
The fabric of society
I need someone to stand by meWhat's done is done
Just let me breathe
(Let me breathe)Let me breathe
Let me breatheLet me breathe
Let me breatheLet me breathe
Let me breatheThese words I scream in silence
With a passion building up inside
