Romulan Ale

S.P.O.C.K

Standing on the table, cold, clear and blue
I'm still pretty stable but it's only number two
Just watch those sparkles in that glass
The way they dance that's top of the class
Romulan Ale - is all I ever want, all night long
Romulan Ale - is all I ever need, all night long
It is very special, it's one of a kind
So buy it if you see it, because it's very hard to find
Tomorrow I'll be very sick
But today I'll be a lunatic
Romulan Ale - is all I ever want, all night long
Romulan Ale - is all I ever need, all night long
Replicators can be very usable
But I want REAL stuff, no f-ing synthehol
It caresses my throat and my soul
There's no one here but I'm not alone
Romulan Ale - is all I ever want, all night long
Romulan Ale - is all I ever need, all night long
